

4th CENTRAL EUROPEAN BIOMEDICAL CONGRESS

Impact of bioinformatics and omics on biology and medicine

CRACOW
2020

May 19-22, 2020

Congress venue: Auditorium Maximum, Kraków, Poland

Organizers:

Maj Institute of Pharmacology Polish Academy of Sciences
Faculty of Medicine of the Jagiellonian University Medical College

Plenary speakers:

Prof. Francesco Battaglia Radboud University, Nijmegen, The Netherlands
Prof. David E. Nichols Purdue University College of Pharmacy, West Lafayette, LA, USA
Prof. Francesco Pavone University of Florence, Florence, Italy
Prof. Jacek R. Wiśniewski Max Planck Institute of Biochemistry, Martinsried, Germany

4th Central European Biomedical Congress will provide new information about use of the latest advances in biological and medical sciences, novel technologies such as “multi-omics”, mobile applications, augmented reality and neural networks.
