2. The project manager was not the supervisor or co-supervisor of doctoral dissertation;
3. Knowledge in the field of neurobiology and pharmacology, including the pharmacology of G protein receptors (GPCRs). Knowledge of the role of the monoaminergic and glutamatergic systems in the pathophysiology of mental illnesses is welcome;
4. At least several years of experience in working in a behavioral, cellular, and biochemical laboratory, confirmed in the form of scientific publications in the field of neurobiology (minimum 5 publications in which the Candidate is the first author);
5. Experience in managing and conducting research projects at the level of planning and implementation of research as well as analysis and publication of results in international journals with a high impact factor;
6. Experience in working with animals as well as completed and certified training for those planning and performing procedures and experiments with the use of laboratory animals and killing animals used in procedures in accordance with the *Act on the protection of animals used for scientific and educational purposes* (as in Journal of Laws of 2023, item 465);
7. Experience in working with GMM and GMO material, especially the construction of bacterial and viral vectors;
8. Practical ability to use RT-PCR, ELISA, western blot, pull-down techniques, immunohistochemical staining, fluorescence microscopy including confocal microscopy and image analysis;

9. Ability to work in a team and independently;
10. In the event of winning the competition and starting work in the project, the candidate may not receive any other remuneration from the funds awarded under direct costs under NCN calls, as well as be employed under another contract of employment;
11. The amount of remuneration in the project will be under the regulations of the OPUS 25 competition;
12. Fluency in written and spoken English;
13. Impeccable ethical attitude.

An additional advantage would be:

1. Fluency in written and spoken Polish.

RESPONSIBILITIES:

1. Carrying out the behavioral procedures planned in the project in a model of chronic unpredictable mild stress in mice;
2. Performing behavioral tests for the assessment of antidepressant-like and anxiolytic-like behaviors;
3. Performing stereotactic surgeries;
4. The study of selected GPCR interaction at the level of synaptic strength;
5. Conducting experiments using biochemical (Western blot, ELISA) and molecular methods (preparation of bacterial and viral vectors, RT-PCR);
6. Analysis of research results, including statistical analysis;
7. Data processing and preparation of manuscripts for publication and presentation of the obtained results during scientific conferences;
8. Strict adherence to the code of ethics of Polish Academy of Sciences employees;
9. Adherence to rules and regulations in force at the IP PAS.

CONDITIONS OF EMPLOYMENT:

Full-time employment contract in the project for a maximum period of 48 months.

REQUIRED DOCUMENTS:

1. Application for employment for the above-mentioned position together with a cover letter with a description of scientific interests;
2. List of information about the candidate in accordance with Appendix 1 to the Form;
3. Personal questionnaire for a person applying for employment in accordance with Appendix 2 to the Form;
4. A copy of the doctoral diploma or a certificate of obtaining a doctoral degree;
5. Short self-presentation;
6. A copy of the certificate of completion of training in conducting research with the use of laboratory animals;
7. Contact details of persons who can provide information about the candidate and who agreed to be contacted;
8. Certificate of English language proficiency, if available;
9. Declaration of the primary workplace and affiliation of research and publication in accordance with Appendix 3 to the Form;
10. Information on the processing of personal data in accordance with Appendix 4 to the Form;
11. A declaration of impeccable ethical attitude in accordance with Appendix 5 to the Form.

Applications and the required documentation should be sent electronically to ifpan@if-pan.krakow.pl by **August 26, 2024**.

The message's title should indicate which competition the application concerns: "**Competition - assistant (post-doc) position at the Department of Neurobiology IP PAS**".

The competition winner will be selected from among those meeting the formal requirements based on the analysis of documents and possible interviews.

Please be advised that we will contact only selected candidates and we will not return the submitted documents. We reserve the right to void the contest without giving any reason.
