3rd CENTRAL EUROPEAN BIOMEDICAL CONGRESS
"News on biomarker discovery and research innovations in medicine and biomedical sciences"

September 15-18, 2018
Congress venue
Auditorium Maximum

Organizers:
Institute of Pharmacology Polish Academy of Sciences in Kraków
Faculty of Medicine, Jagiellonian University Medical College
associated by the Polish Pharmacological Society and the Polish Toxicological Society

Plenary speakers:
Prof. Ulrik Gether  Molecular Neuropharmacology and Genetics Research,
University of Copenhagen, Denmark
Prof. Csaba Földy  Brain Research Institute, University of Zurich, Switzerland
Prof. Francesco Pavone  European Laboratory for Non Linear Spectroscopy
and Department of Physics, University of Florence, Italy

The CEBC is dedicated to: physicians, biologists, biotechnologists,
pharmacologists, toxicologists, pharmacists and chemists.

The Congress addresses several hot topics in pharmacology and toxicology, as well as
methodological and technological innovations not available in Poland. It also promotes
outstanding opportunities for junior scientists to present their research and interact with
leaders in the field.
